

How to add the Rainbow schedule to your Google or Apple calendar

IMPORTANT

Don't paste the calendar link into your web browser. It won't subscribe you to the calendar correctly, so you won't receive schedule updates.

Please follow the instructions below carefully. They add the Rainbow schedule as a **separate subscribed calendar**, which you can turn on or off whenever you like. Importing it into your own calendar instead may create individual events that can only be removed one at a time.

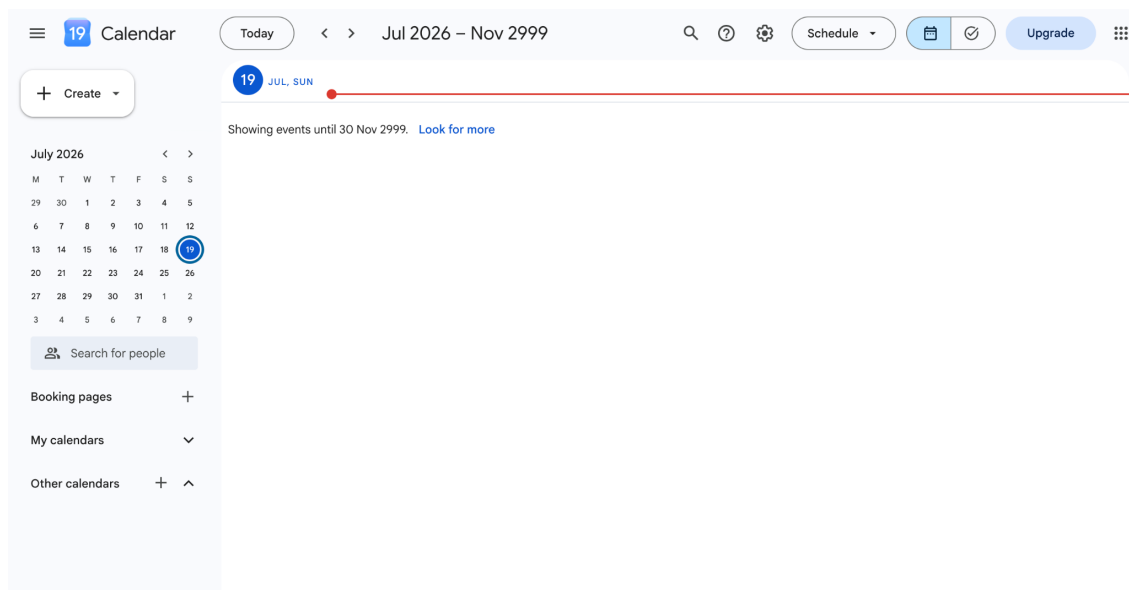

Google Calendar (requires a computer to set up)

1. On your computer, open [Google Calendar](#)
2. On the left, next to "Other calendars," click the + sign and then choose 'From URL'.
3. Enter the calendar's address - <http://schedule.rainbowhe.events/rainbow2026.ics>
4. Click Add calendar. The calendar appears on the left, under "Other calendars."

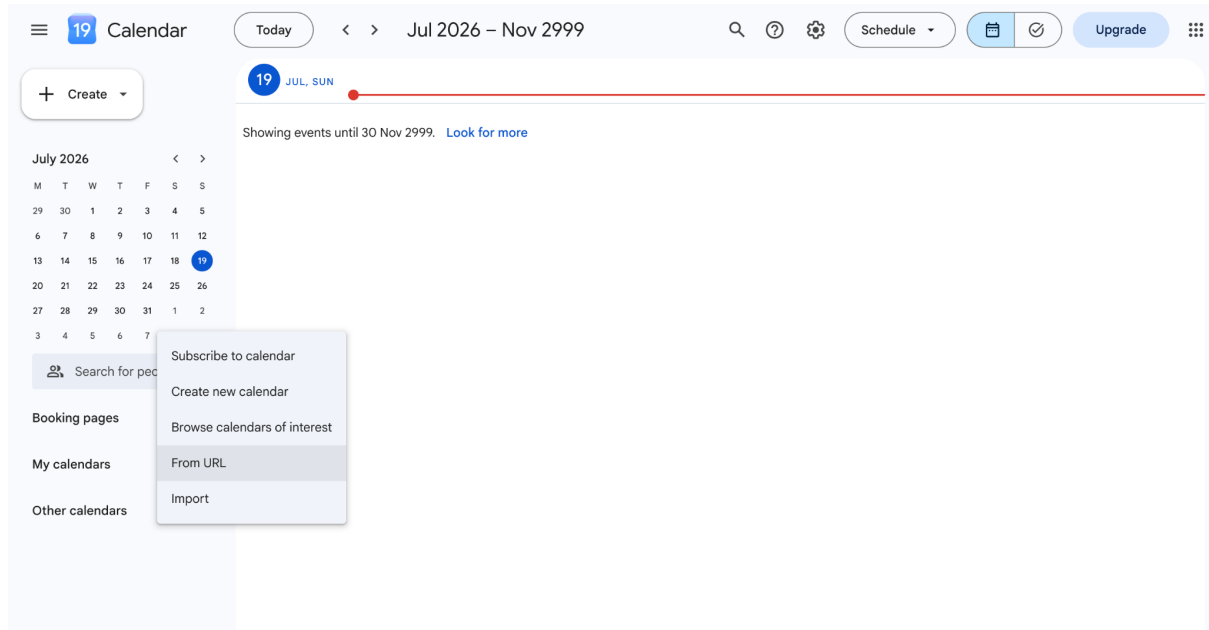

Tip: It might take up to 12 hours for changes to show in your Google Calendar.

If you need a walk through, follow the screenshots below.

1. On your computer, open [Google Calendar](#)

2. On the left, next to "Other calendars," click the + sign and then choose 'From URL'.

3. Copy and paste the URL <http://schedule.rainbowhe.events/rainbow2026.ics> into the box. Click the blue 'Add calendar' button.
